What do you do when coaching doesn't work?
How do you coach someone when they don't
have the 'skill or the 'will'?

Get the answer to these burning questions at our
half day Coaching for Leaders Workshop. Our
Leadership Trainer, Tony Lum, will equip you
with all the skills necessary to effectively coach
both existing and potential leaders within your
organisation.

Our workshop has been designed for a small
group, allowing more personal, individual and
peer to peer feedback to ensure you get the
most out of your session.

*"Leading doesn't
always mean being out
the front directing
others. Sometimes it's
the person you least
expect that is the glue
that holds the team
together and inspires
people quietly one on
one – this is the one we
need to look for. No
cape needed"*

- Tony Lum
